HAZMAT
TOOL ROOM

HAZMAT COMPLIANCE

- Chemical Issue Centers (CIC's)- The corner stone of the program.
- Total control of products allow us to track usage of Hazmat down to the employee

HAZMAT COMPLIANCE

- Employee's arrive at CIC and completes reacquisition for chemical.
- Attendant verifies employee number and obtains chemical
- Currently done by hand but plans are to automate this system within the next year

HAZMAT COMPLIANCE

- Special cart is set up for those products that are most frequently used.
- Cart is place close to issuing center where attendants have close access to.

HAZMAT COMPLIANCE

- Information is entered into data base
- Employee Name and Number
- Product Id Number
- amount used (which is done by using scales to weigh the product)
